

VIP CALL LIST FOR HB 6051

Senator Rader D (Lake Worth) Probably our most likely candidate for bringing this bill to the Senate. Last year he sponsored the bill to end free kill for mentally disadvantaged. He was also the chairman at the Palm Beach County public hearing when I spoke. I will also reach out to see if I can get an in-person meeting.

- (561) 443-8170/(850) 487-5029 rader.kevin@flsenate.gov

Senator Gary Farmer (Broward) Also a very good candidate for bringing this to the Senate floor as he has been outspoken that this bill must be repealed.

(954) 467-4227/ (850) 487-5034 farmer.gary@flsenate.gov

*I also have this in a spreadsheet with the contact info for most of their assistants also. If you want it, just ask.

Of course, getting everyone we can onboard is important, however, the most important key people that I know of are in the next section, due to the committees they are members of. Please feel free to add to the list of known supporters at the bottom. It's important to know how many people want to make sure they vote accordingly if they have the opportunity.

Most important people to call:

These are people who are either already on the Bill or on a committee that the bill will go before. I will keep an eye on the bill tracking daily and see if it is scheduled to go before any additional committees and post accordingly.
